Amendment

Sir:

In response to the Official Action dated 30 October 2008 Applicants
courteously request entry of the following amendment:

In the Specification:

Replace the current specification by the enclosed substitute specification
which is not only formatted, as requested by the Examiner, in accordance with
37 C.F.R. 1.77(b) but also incorporates the corrections of typographical and
syntactical errors shown on separate sheets appended hereto. Applicants are
also submitting a set of new claims believed patentably to distinguish over the
prior art cited by the Examiner or otherwise known to Applicants.

In the Claims:

Please cancel claims 1-14 and substitute the new claims enclosed
herewith.

Remarks

The objections raised against claims 6 and 4-14 are not understood since
claim 6 depends from claim 1 only, and none of claims 4-14 are multiple-
dependency claims. In the event, the formal objection raised against these
claims is rendered moot by the new claims.
